## OPEN ACCESS PSYCHIATRY SERVICES

*Information for Lyons Township Residents with a Primary Care Provider external to Community Nurse Health Center.*

Open Access\* Psychiatry Services are available at Community Nurse Health Center in La Grange for children, adolescents, and adults. Services include comprehensive evaluation, medication management, therapy, and crisis stabilization, and are coordinated closely with medical providers, mental health counselors, and therapists.

**Due to limited availability, psychiatry services are limited to:**

- Residents of Lyons Township.
- Patients with a referral from their primary care provider or other mental health professional, unless they participate in the following insurance plans: Aetna Better Health, County Care and Molina.
- Patients who have an insurance plan Community Nurse participates in or who apply for a sliding scale discount. If neither applies, patient can pay full charges and elect to submit the bill to their insurance company for reimbursement.

To facilitate appropriate treatment, all patients must have a screening assessment with our Community Nurse counselor prior to their first psychiatric visit.

**Services are available at:**

**Community Nurse Health Center**

**110 Calendar Avenue, La Grange**

**Call 708-352-0081 for an appointment**

*This program is in addition to the current psychiatry services Community Nurse offers for its primary care patients. If you have any questions about the difference in programs feel free to call us at 708-352-0081.*

\*Open Access means a patient can have a Primary Care Provider other than Community Nurse. They will not need to change their PCP in order to be seen.
